WINEGARD® TRAV'LER®

The Best of the Best - designed to bring you *everything* satellite television offers.

- The **only** antennas capable of viewing all satellites at the same time
- DIRECTV Slimline is the **only** antenna to offer complete DIRECTV HD

JUST LIKE HOME

All trademarks and registered trademarks are the property of their respective owners.

TRAV'LER® DIRECTV® Slimline KU/KA

Get everything DIRECTV® has to offer with the TRAV'LER® Slimline! This fully automatic, one button on/off antenna receives programming from all 5 DIRECTV® satellites at the same time for maximum HD and standard DIRECTV® coverage! Receives both KU-band satellites (101°, 110° and 119°) and KA-band satellites (99° and 103°) signals simultaneously. Works great with DVRs! Unit wt: 53 lbs., Travel ht: 9.75", Dim: 44"L x 34"W.

1-85850 (Mfg# - SK-3005) DIRECTV Slimline KU/KA \$1899.00

TRAV'LER® DISH NETWORK®

DISH Network's premier reflector dish used for home systems. Automatic, one button on/off antenna views all satellites at the same time for maximum reception performance. Works great with DVRs! Receives all DISH Network® standard and HD programming from satellites 110°, 119° and 129° simultaneously. Also receives all Bell TV™ standard and HD programming from satellites 82° and 91° simultaneously. Unit wt: 45 lbs., Travel ht: 9.75", Dim: 42"L x 26"W.

1-85848 (Mfg# - SK-1000) DISH Network \$1599.00

TRAV'LER® DIRECTV® Triple LNB

Ideal for DIRECTV® customers interested in receiving all standard DIRECTV® programming, not HD. Automatic, one button on/off antenna views all DIRECTV® KU-band satellites (101°, 110° and 119°) at the same time for maximum reception performance. Not compatible with DIRECTV® KA-band satellites. Works great with DVRs! Unit wt: 43 lbs., Travel ht: 9.75", Dim: 40"L x 24"W.

1-85849 (Mfg# - SK-3003) DIRECTV Triple LNB \$1599.00

TRAV'LER® SHAW DIRECT

The solution for Canadian RVers! Fully automatic, one button on/off antenna receives programming from all Shaw Direct satellites (107° and 111°) at the same time for maximum HD and standard Shaw Direct coverage. Works great with PVRs! Unit wt: 54 lbs. Travel ht: 11.75", Dim: 48"L x 38"W. **Must order both models listed below for complete unit.**

1-85859 (Mfg# - SK-7002) SHAW DIRECT Mount \$1844.00
1-85860 (Mfg# - SKA-722) SHAW DIRECT Dish and LNB \$255.00

TRAV'LER® ANTENNA ACCESSORIES

Communication Cable

25' long extension power/communication cable. Connects directly to existing TRAV'LER power/comm. cable for runs up to 50'.

1-85861 (Mfg# - CL-SK26) Communication Cable \$49.95

Roller Plate

Designed to create solid landing area for LNB roller arm. Ideal for rubber roofs.

1-85863 (Mfg# - SKA-004) Roller Plate \$9.95

Mounting Plate

Designed for extra support in thin roof installations.

1-85864 (Mfg# - SKA-008) Mounting Plate \$125.00

12.9" RoadTrip® Mission™ Satellite TV Antennas

NEW!

Mission accomplished! The RoadTrip Mission antenna offers the same powerful and reliable performance Winegard® is known for in an all-new sleek, ultra-compact antenna. Easy one-button on/off automatic operation with DVB technology delivers fast and accurate satellite acquisition. Enhanced antenna design combined with the high gloss rounded dome provide for unmatched signal strength, especially in inclement weather. Receives standard DIRECTV® programming; all standard and HD DISH Network® and Bell TV™ programming. Supports two receivers for simultaneous viewing of different programs located on the same satellite. Available in stationary or in-motion; white or black dome options. Wall switch, power and coax cables included. Only 12.9"H x 20" Dia.; unit 18.5 lbs, ship wt. 28.5 lbs.

1-85871 (Mfg# - RT4000T)	
In-motion, White	\$1499.00
1-85872 (Mfg# - RT4035T)	
In-motion, Black	\$1499.00

+12 V Power Supply

Make +12 V installs a breeze! Converts any standard 110 VAC electrical outlet to a +12 VDC power source. Output:13.8 VDC, 6 amp. Never search for a 12 V power source again!

1-85858 (Mfg# - PS-1208)	
+12 V Power Supply	\$89.95

Carryout® Automatic Portable Satellite TV Antenna

Compact, fully automatic portable satellite TV antenna that goes with you anytime, anyplace! Perfect for RVing, camping, tailgating, races, wooded areas, cabins, vacation homes, back yard BBQs and more! You'll be amazed at how easy this antenna is to set up and operate – just turn it on and let it do the rest! Runs off of 12V and plugs into standard 12V outlet in your vehicle (12V power converter to 110V sold separately). Carryout supports programming from multiple satellite providers: DISH Network® (SD & HD), DIRECTV® (SD) and Bell TV™ (SD & HD) which is great should you ever switch providers. Compatible with wide variety of receivers . No need to buy a special receiver. You even have the ability to use your receiver from home. Single satellite viewing antenna with two coax inputs allow for multiple receiver hook up so you can watch 2 TVs at once. Features easy grip handle for effortless carrying. Eyelet attached to base provides ability to lock up antenna for added security. Includes 50' power and coax cable. Lightweight and durable: 15.6" dome height, 20" diameter. Choose between classic white or Realtree® camouflage. (Realtree AP HD © 2006 of Jordan Outdoor Enterprises, Ltd., all rights reserved.)

1-85839 (Mfg# - GM-1518) White	\$699.00
1-85827 (Mfg# - GM-1599) RealTree® Camouflage NEW!	\$899.00

Tenna Tool for Sensor Antennas

Tightens 15/16 nut holding gear housing to base plate.

1-85869 (Mfg# TT-1000)	\$16.86
-------------------------------	---------

Carryout® MP1™ Manual Portable Satellite TV Antenna

Extremely compact and super affordable, take this antenna anywhere you go! Perfect for races, tailgating, camping, traveling and other outdoor activities. Manual antenna stores in compact, durable case that doubles as the antenna base when in use. Case features easy grip handle for carrying or locking down. Bubble level, compass and elevation markings molded in base make set up quick and easy. Includes 25' coax cable to allow for optimal antenna placement. Case with antenna measures 16" w x 18.5" h x 10" d, weighs 9 lbs. Supports 2 receivers (not included). Receives standard DIRECTV® programming and all standard and HD programming for DISH Network® and Bell TV™. Not compatible with DIRECTV® KA-band satellites.

1-85831 (Mfg# - GM-MP1) \$199.00

Carryout® Tripod Mount

Aluminum tripod elevates your Carryout (both 1-85839 automatic and 1-85831 manual models) or VuQube® portable satellite antenna off the ground for protection from mud and water. Adjustable height settings from 14 1/2" to 22". Sturdy ground anchor, 6" bungee cord and anchor loop hold the tripod and satellite antenna securely. Easy assembly; quickly disassembles for compact storage. Shipping weight, 4.4 lbs. (VuQube is a registered trademark of King Controls.)

1-85832 (Mfg# - TR-1518) \$84.95

Carryout® Ladder Mount

Mount your Carryout automatic portable antenna to the RV ladder for temporary or permanent installation. Weather resistant powder coated mount features quick disconnect, so you can remove your Carryout antenna and set it on the ground or take it with you anywhere! Extends from 19.5" – 23.5" in two inch increments for 3 setting options. Comes with wall plate with on/off switch for convenient operation from inside the coach, cable entry plate, 50' coax and 25' power cable without lighter adapter plug. Verify your ladder/pole can support total weight of Carryout antenna and mount – 20 lbs. Unit weight 5.5 lbs, shipping weight, 8.5 lbs.

1-85837 (Mfg# - GM-3000) \$249.00

Heavy Duty Tripod Mount

Sturdy powder-coated steel tripod mount with 1.66" OD mount pipe compatible with all DISH Network®, Shaw Direct and Bell TV™ antennas, plus all DIRECTV® antennas except Slimline. Fully adjustable legs allow up to a 45° angle setting for ultimate stability and expand and retract between 28" – 37" for an optimal setting. Includes handy nylon bag which attaches to leg when not in use to store 3 ground anchors, satellite alignment compass and bubble level also included. Tripod folds to 36" requiring minimal storage space. Wt. 10-1/2 lbs. Made in the U.S.A.

1-03333 (Mfg# - TR-3535) \$89.00

Satellite Finder Meter

Meter with audio tone helps you align satellite antenna to signal. Installs between satellite antenna and the receiver. Includes jumper coax cable.

1-03336 (Mfg# - SF1000) \$39.95

Single Satellite Viewing Antenna

View one of any available KU-band satellites (61.5°, 72°, 82°, 91.5°, 101°, 110°, 119°, 139°, 148°). Features 18" antenna with dual feed LNBF for up to 2 receiver viewing. Includes wall/roof/pole mount for nearly any kind of installation. Can be used with single satellite viewing tripod mount. Not compatible with DIRECTV® satellite 110° or KA-band satellites.

1-85851 (Mfg# - DS-4248) \$49.99

Tripod Mount

Ideal when permanent mounting is not desirable. Great for short stops, wooded areas, boat docks, decks, etc. Works with a standard 18" single satellite viewing home dish. Azimuth degree markings molded in. Includes removable legs, ground anchor, bungee cord, compass and level. Not for use with portable satellite TV antennas. 8-1/4" x 8-1/4" x 19". Weight: 5 lbs.

1-03332 (Mfg# - TR-2000) \$51.81

Satellite Alignment Compass

Use local zip code to obtain azimuth setting from satellite receiver. Aim your dish in the direction indicated by the compass. Easy to read alignment instructions printed on compass.

1-03324 (Mfg# - SC2000) \$12.18

Crank-Up Satellite Antenna

Raise, lower and rotate the 18" dish with hand crank from inside vehicle. Digital Magic™ sensor makes finding the satellite faster and easier. After you park, the LCD readout inside your vehicle shows the elevation of the dish within 2 degrees, even if not parked level. 30" deployed, 8" stowed, wt. 12 lbs.

- 1-89500** (Mfg# - RM-DM46) Crank-Up w/Digital Magic Sensor \$382.20
1-89496 (Mfg# - RM-4600) Crank-Up No Digital Magic Sensor \$249.91

Combination Satellite/Over-the-Air Antenna

One mount and one install for both satellite and over-the-air (local) broadcasts. Antennas raise, rotate and lower with hand crank from inside the RV. 18" digital satellite dish and over-the-air omnidirectional RoadStar™ antenna satisfy all your viewing needs. Requires 19.5" x 46.75" roof space.

- 1-82103** (Mfg# - RM-4610) \$338.79

Combination Satellite / Over-the-air Antenna with Built in Digital Magic

Same great system as above but comes with factory installed Digital Magic elevation sensor. Gives the elevation of the antenna on an LCD readout located inside the coach.

- 1-82104** (Mfg# RM-DM61) \$443.42

Exterior Satellite Roof Wedge

Designed to level satellite TV antenna on vehicle with uneven roof. For vehicles with extremely sloped roofs, multiple wedges may be needed. For use with RM model Winegard crank-up satellite antennas.

- 1-89497** (Mfg# - RW-5000) \$9.35

Digital Magic™ Sensor

Gives exact elevation of the antenna on an LCD readout inside vehicle. Accurate to within 2° even when the vehicle is not level. Sensor is installed on the elevating tubes or the back of the antenna and wired to the wall plate. Includes 20' of 3-conductor cable. Requires + 12 VDC or a 9V battery. Ideal for crank-up satellite antennas, 1-89496 and 1-82103.

- 1-03335** (Mfg# - DM-4000) \$137.45

DISH 500 Antenna

Watch up to 500 channels including available HD programming located on satellites 110° and 119°. Fits heavy duty tripod mount (sold separately). Multiple receiver capable. (Check with DISH Network® for receiver compatibility with DISH 500 antenna).

- 1-85852** (Mfg# - DS-5005) \$85.00

Cable Entry Plate

Durable molded plastic weather-protected entry plate for up to 2 cables. For use with automatic satellite systems.

- 1-89490** (Mfg# - CE-2000) \$2.81

Roof-Thru Plate

Aluminum weather-protected entry plate. 75 ohm both sides.

- 1-80492** (Mfg# - RJ-1010) \$5.42

RoadStar™ HDTV Antenna

Omnidirectional, over-the-air HD antenna continuously receives VHF/UHF/FM signals from all directions so you'll never have to aim or adjust it! Built-in solid state amplifier boosts signals on average of 15dB on VHF, 20 dB on UHF. Power supply operates on 12 volt DC. 0 – 35 mile range.

- 1-83315** (Mfg# - RS-2000) \$146.50

Hideaway® HDTV Antenna

Omnidirectional over-the-air antenna opens and closes like an umbrella; stores in weather-protected tube with rain cap when traveling. VHF/UHF/FM antenna receives signal in all directions without rotator. Includes 15' 75 ohm cable with connectors and mounting hardware.

- 1-80005** (Mfg# - HA-0130) \$58.22

SENSOR® IV Antenna Replacement Head

Sensor IV amplified RV TV antenna replacement head with integrated Wingman.

- 1-85829** (Mfg# - RVW-205) \$69.99

Replacement Head for Sensor® III Antenna Head

Sensor III amplified RV TV antenna replacement head.

- 1-03302** (Mfg# - RV-2005) \$87.29

SENSOR® IV HDTV Antenna

Winegard has taken the powerfully performing Sensor III antenna and integrated it with the UHF enhanced Wingman® antenna for the ultimate in over-the-air TV viewing! Optimized for the new DTV spectrum, this amplified antenna receives all available VHF/UHF channels so you can enjoy watching all your favorite local programs while parked. Raise, lower and rotate the antenna with hand crank from inside your RV. It's easy to install and lowers to only 4" inches above the roof while traveling. Integrated Sensor head requires 46.25" L x 15.25" W, unobstructed roof space while stowed.

1-85830 includes amplified antenna and lift assembly, +12 VDC white power supply with on/off switch, white interior control parts and 20 feet of 75 ohm coax cable. U.S. Patent D620,483.

1-85830 (Mfg# - RVW-395)

Wingman® Antenna for Sensor® Antennas

Maximize your Winegard Sensor II or III batwing antenna's performance with a Wingman. The lightweight, sleek add-on attaches with simple snap-on screws to the Sensor head to increase UHF performance up to 100% for complete VHF/UHF reception at a very low cost. Compatible with Sensors manufactured after 1990. Elements are powder coated white for long lasting durability in harsh environmental conditions. Requires 10" from edge of Sensor head to nearest obstruction. Dimensions: 16.5"w x 14"d x 1.4"h; weight, 1 lb. U.S. Patent D612,369.

1-85870 (Mfg# - RV-WING) \$29.99

SENSORPRO™ TV Signal Meter

Designed to work with all amplified Sensor antennas, the SensorPro replaces your current power supply and makes peaking on digital channels a breeze. SensorPro is an all in one product that acts as a signal meter, adjustable amplifier and wall plate power supply for your Sensor antenna. It is ready out of the box and can be customized for specific search modes eliminating guesswork and frustration. Built in amplification can give you up to 10 dB of gain for increased performance or the ability to lower the gain when positioned near a tower. Adjustable audio feedback comes in handy when the wall plate is out of sight or reach. High grade electronic digital tuner focuses only on U.S. digital broadcast frequencies and ignores non-TV broadcast signals to provide precise and accurate channel readings. Proudly designed, tested and built in the U.S.A.
